Certainly we are not obeying their precepts nor following their example. We are making progress, it is true; but in no new path. It is the same road, down hill, that free governments have fraveled before; and if we do not to the same sud, then some sud, the sum of the su settle upon our deserted latds. We have cling to every hope; but if our business is again to be broken up; if our mail facilities sllowed to stop the continuous lateral to th railroad; If no protection is to be given us, then we might better abandon the fruitless contest. The secrifices demanded are too great for the end sought. We might better abandon the country, and go to other States where we can live in peace and have some protection for our lives and property.

These are the seutiments of the loyal peo-

ple of the border, and they will act non them.
Had any resolvable protection been afforded
during the winter, had a few hundred cavalry
vigorously scouted the country, and drove out
the guerrillae, as they could easily have done, we should have had a large and valuable im migration this spring. Now we shall get al-most none. No: only that, out give use one year more of bushwhacking, and haif the people that are now on the border will leave. How can we stay? The guerrillas will not allow the farmer to raise crops, and how can the towns live without a country to support them? It is felly to talk of the civil authoritie deing anything in this matter. What do gnerrillas and bushwhackers care for your in-citements? About as much as they do for General Orders, commanding them to diserse. There is but one way to put these reiches down, and that is by the crushing hand of military power. If that can't do it then the problem is insoluble, and the rebela will hold the country. Yours,

NEW YORK, March 24. The Tribnne's Washington special says that news of the occupation of Gold boro, published yesterdsy, has been to day confirmed by state-ments of trustworthy parties who arrived here direct from Newbern. Sherman's force was dispersed into marching towards Michalo:'s tation, on the railroad, and to Raleigh, to destroy an important bridge across the Neuse river. The center had arrived at Guidsboro, and the right on Tuesday, the 21st, formed a junction with Schefiele's forces at a point leven miles east of Goldsboro.

The victories claimed by the rebals at Ban-

The World's special says the fight alluded to in the Richmond papers on Tuesday, as having occurred between a portion of Sherman's force and Johnston's army, is understood in military circles to have merely been a small fight with a detachment sent by Ger. Slocum to burn the fine ratiroad bridge across the Neuse river near Smithfield, be-tween Gold bore, and Raleigh.

The Opisione National of Paris, Prince Na-poleon's organ, enloyises Gen. Sherman's opeations and tactics in the highest terms, and

The amount to this date contributed by the \$25 subscribers to the bounty fund is \$39,200, which will only any bounties to 140 men. Thus, the will only pay bounties to 140 men. Thus, the two funds combined will pay for but 707 men. There have been already enlitted to the credit of the city 442 men, and there are now 450 men more who offer to enlist. When they shall be enlisted, it will make the number credited to Louisville 892 men, which is 95 men more tean the two funds (as at present) combined with pay. Besides, even it this number of 892 men should be paid, there would still be deficiency o. 366 men; and unless this deil clency is made up the draft will be ordered. In ddition to the 450 men, now about to be enissued, others can be procured; they are canly offering and there will be no difficulty in procuring enough and increthan enough men to fill the city's quota and svold the dreft.

Let the citizens, therefore, come forward at once and subscribe to the fund, so that we may not have to lurn away the volunteers for want of funds to pay the bounly. This we must do, unless the citizens promptly come forward to-morrow; for, as before observed, we have siready more men engaged than the fund will now pay. Let every citizen take ap interest in the matter, and not be satisfied alone with subscribing, but let him urke others to come forward and Emberribe, and not cease his work till enough money is raised o pay off the city's quota.

WM. KAYE, Mayor, Ch'n.

Notice. The bonds of the city of Louisville, to the mount of \$200,000, authorized to be issued to raise a bounty turd, will be ready for sale as soon as they can be printed and filled up, which will be in a few days.

The bonds are for \$1,000 each, with coupors attached for semi-annual payment of interest; one hundred of the bonds being payable ter years after date, and the other hundred paya-

ole twenty years after date.
That the clitzens of Kentucky, especially of Louisville, may have an opportunity of making an investment in the purchase of the bonds to such emoust as they may wish, those who desire to purchase will please at once address the Mayor of the city, giving their names and residence, the number and characteristics. scier of the bonds proposed to be bought, and the highest price they are willing to pay therefor. This invitation for proposals is not, however, limited to chilzens of Kentucky. www. Kave, Mayor. February 23, 1865. Astrology.
